Bashayer Bamarhul

UI/UX Specialist

bashayerbamarhul@gmail.com +966 530053659 Portfolio link

PROFILE

UI/UX Specialist and Software Engineer with a Computer Science degree (GPA 5.0/5.0, First Class Honors). Expert in building and scaling Design Systems, component libraries, and typography systems using advanced Figma design patterns. Proven ability to bridge design and engineering, enforce WCAG accessibility compliance, and build end-to-end digital products. Native Arabic and fluent English speaker available for onsite roles in Riyadh.

SKILLS

Design Systems & Architecture
Design Systems, Component Libraries, Design Tokens, Variants, Governance, and Documentation.

Design-to-Code Collaboration
Frontend Awareness (React, Next.js, TypeScript), Production-Ready Components, and Developer Handoff.

UI/UX & Product Design
End-to-End UI/UX Design, Wireframing, Prototyping, Accessibility (WCAG), Responsive Design, Usability Principles, and Typography.

Strategy & Operations
Agile/Scrum Workflows, Stakeholder Management, Cross-functional Training, and Design Adoption Tracking.

PROFESSIONAL EXPERIENCE

Frontend Development Intern 05/2025 – 07/2025
Nexcore Jeddah, Saudi Arabia

- Engineered 30+ type-safe components using React/Next.js, ensuring strong technical alignment between UI design patterns and production code.
- Applied best practices to optimize web performance and maintain design consistency across responsive design layouts.
- Researched user stories to define technical specifications and produced clear design-to-development documentation.
- Collaborated with distributed teams to track sprint deliverables and meet project deadlines.

PROJECTS

Base360 & Brand Collateral Landing Pages :
- Designed end-to-end digital products and responsive interfaces leveraging advanced Figma design patterns and modern visual standards.

Company Profile & Admin Dashboard :
- Developed corporate landing pages and integrated administrative dashboards to streamline system workflows.
- Delivered professional presentations and technical documentation to stakeholders to facilitate strategic decisions and developer handoffs.

Electronic Contracts Platform (منصة العقود الإلكترونية):
- Designed comprehensive user interfaces and interactive workflows in Figma for digital documentation systems.
- Managed project scope, timelines, and deliverables aligned with client requirements.

EDUCATION

Bachelor of Computer Science 01/2022 – 06/2026
KING ABDULAZIZ UNIVERSITY Jeddah, Kingdom of Saudi Arabia
GPA: 5.0/5.0 (First Class Honors / First Rank)

LANGUAGES

- Arabic
- English

COURSES & CERTIFICATIONS

- **Technical & Agile Workflow:** Figma, Agile/Scrum, SDLC, Frontend Awareness (React, Next.js).
- **Specialized Training:** UX Research & Planning, Advanced Figma & Design Systems, Agile Methodologies, React & TypeScript Fundamentals.
