Bashayer Bamarhul

Frontend Developer

bashayerbamarhul@gmail.com +966 53 005 3659 Portfolio link

Profile

Frontend Developer with hands-on experience in responsive, semantic HTML5/CSS3 and JavaScript (ES6+) UI logic. Strong understanding of frontend architecture and component-based design, building reusable UI components across multiple production projects. Skilled at translating Figma designs into pixel-perfect, accessible (WCAG) components using Tailwind CSS and Bootstrap. Comfortable with Git/GitHub, code reviews, and Agile workflows. Computer Science graduate (King Abdulaziz University).

Professional Experience

Nexcore May 2025 – Jul 2025
Frontend Development Trainee Jeddah, Saudi Arabia

- Built responsive, semantic HTML/CSS components with Tailwind CSS; ensured cross-browser compatibility and design-spec adherence
- Translated Figma mockups into pixel-perfect, reusable components on a live production site
- Debugged cross-device/browser UI issues; contributed to code reviews and Agile handoffs
- Applied WCAG accessibility and SEO-friendly markup standards

Projects

E-commerce Website UI
- Built a responsive interface using vanilla JavaScript for DOM manipulation; tested and debugged across devices

Nexcore Website
- Developed component-based, semantic front-end architecture from design specs, optimized for performance and consistency

Solen Website
- Delivered a responsive, accessible interface with consistent cross-browser behavior

Education

KING ABDULAZIZ UNIVERSITY | Jeddah, Kingdom of Saudi Arabia Jan 2022 – Jun 2026
Bachelor of Computer Science | GPA: 5.0/5.0

Skills

Languages & Core
JavaScript (ES6+), HTML5, CSS3, DOM Manipulation

Currently Learning
React.js, Vite, RESTful API Integration, Async/Await & Promises, TypeScript, Next.js, JSON, PHP, MySQL, WordPress

Design Implementation
Figma, Pixel-Perfect UI, Wireframing, Prototyping, WCAG Accessibility, SEO-Friendly Markup

Debugging
Cross-Browser Compatibility, UI Consistency Testing

Architecture & Design Principles
Frontend Architecture, Component-Based Design, Reusable UI Components, Responsive Design Principles

Styling & UI Frameworks
Tailwind CSS, Bootstrap

Tools & Workflow
Git, GitHub, Code Reviews, Agile/Scrum Methodologies

Courses

Introduction to Networks, UX Research & Planning (Tuwaiq Academy), UI/UX Design (Tuwaiq Academy), Tailwind CSS (Udemy), HTML/CSS/JavaScript (Satr), Bootstrap Framework (Satr)

Languages

Arabic, English
